

New Research on COVID-19 Testing

Help us find new tests to beat COVID-19!

What is this research about?

We want to learn how to test for COVID-19 in people who may or may not feel sick.

How can I help?

Take two COVID-19 tests and answer some questions about yourself.

How long will this take?

A total of one hour at one visit.

How are the COVID-19 tests done?

Samples could come from different parts of your nose or mouth.

Will I get the test results?

You will get the standard test results within 1 week.

What else do I get if I participate?

You will receive a \$20 gift card.

How will my test samples be used?

Your test samples will only be used for this research study.

What happens if I test positive for COVID-19?

You will be referred to a clinician for follow-up.

We are also required to share your results and how to contact you with the local Department of Public Health.

Who do I contact to participate and to get more information?

Tel: 508-856-TEST (8378)

Email: COVID19TestUs@umassmed.edu

Brought to you by **RADx Tech**, part of the **NIH Rapid Acceleration of Diagnostics** program
